Doug:

The U.S. Environmental Protection Agency has reviewed Veolia's April 8 and August 16, 2013 application for renewal of its Clean Air Act Title V Permit No. V-IL-1716300103-08-01. Attached are a preliminary draft permit and statement of basis for the renewal permit. EPA is offering you an opportunity to review these documents and to voice any specific concerns with the preliminary draft permit and statement of basis prior to EPA's issuance of a draft permit for public comment period pursuant to 40 C.F.R. § 71.11(a)(5).

Please submit any comments on the preliminary draft permit **by October 3, 2014**. In addition, by this email, EPA is inviting you to meet with us **by September 30, 2014**, to discuss any concerns you may have on the preliminary draft permit. Please contact me or David Ogulei at (312) 353-0987, to set up this meeting.

Please note that this communication does not represent a final Agency action to issue or deny a permit to Veolia under Title V of the Act, or any other kind of final agency action under section 307(b) of the Act, 42 U.S.C. § 7607(b). A final decision on your application will be made after consideration of all relevant comments received during the public comment period.

Please contact me with any questions.

Genevieve Damico

Chief
